The House That Stands for Quality

A Most Desirable "Savings Account"

When you subscribe for shares in a co-operative bank you are merely planning to save a definite amount of money every month.

Under this plan, you get maximum earnings on your savings.

You do your saving in a notably safe institution.

And, if you cannot go through with your program, you can always cash your investment and get all your money back with whatever earnings are due at the time.

Fire Alarm Telegraph—Cont.

3 Blows with 5 seconds intervals at 7.30 A M means no morning session of any school

3 Blows at 12.30 P M with 5 seconds intervals between blows means no afternoon session of any school

Note—Where possible, a box alarm is preferable, as it notifies firemen of the location of fire. Persons pulling in an alarm should always wait at box until the arrival of firemen so as to direct them to its location

In giving an alarm by telephone be sure to give exact location of fire, street and number, whether serious or slight, and do not pull in a box alarm after engine house has been called, as this is sure to cause confusion

Drivers must in all cases after an alarm by telephone press box nearest to fire when there is the least possible danger

Officers will see that a roll call is held after each alarm and report same within 4 days to the chief of the fire department
